

Established in 1955, Crown Windows & Sunrooms has blossomed into one of the premium manufacturers of vinyl windows and sunrooms. New innovative product design, state-of-the-art ...

We've been manufacturing home improvement products for over 50 years ...

3500 Series

DISTRIBUTED BY:

... fusion welded windows, along with the most advanced insulating glass system, provides a strong, dependable, energy efficient window product.

... so see what you've been missing,  
Improve Your View with Crown.

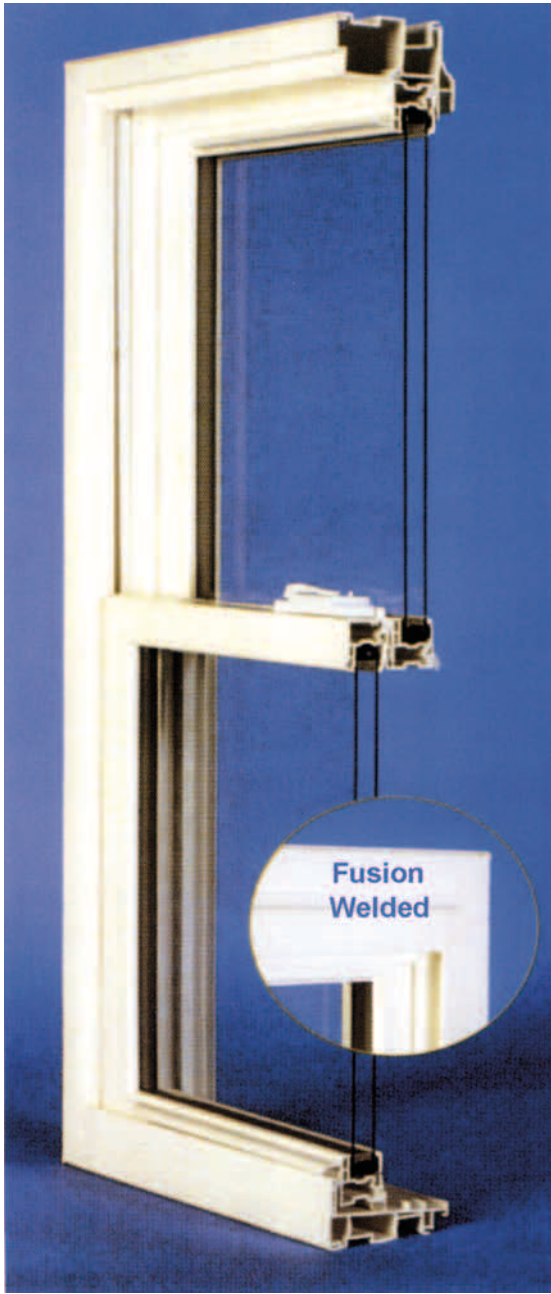

Premium Vinyl Windows

The backbone of Crown's Premium Window is the strength of the mainframe ...

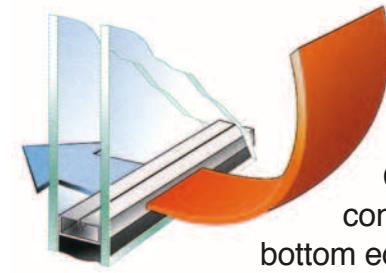

## Features & Benefits

- **Nail Fin J-Channel**
- **Fusion Welded Frame and Sash:** Provides an impenetrable barrier to air and water penetration and utmost in strength and integrity.
- **Unique Cove Mold Look:** Offers a more traditional wood window exterior appearance.
- **5 Degree Positive Sloped Sill:** Provides water runoff, even in driving rain.
- **Deeply Pocketed Head:** With weather stripping to resist air infiltration.
- **Heavy Walled Construction:** 0.070" walls are a full 12% thicker than most other windows and provide a better thermal barrier.
- **Proven Constant Force Balance System:** Provides smooth and maintenance free operation of sash.
- **New Soft Curved Sash Design:** Looks more like a traditional wood window sash.
- **Attractive Integral Lift Rail:** Provides easy sash operation.
- **Recessed-in Tilt Latches:** Color matched low profile latches for a neat appearance.
- **Insulating Glass System:** For maximum regional thermal efficiency. Optional Low-E coating or Low-E with Argon for additional energy savings.
- **Warm Edge Technology:** Non-Conductive *Super Spacers*® provides barrier to heat transfer in insulating glass unit.
- **Interlocking Meeting Rail:** Integral Interlock provides additional security and has passed AAMA Forced Entry Resistance Test.
- **Die Cast Cam Lock and Keeper:** Cam action actually draws sash closed together for a positive lock.
- **Two Layers of Weather Stripping:** With double mylar fins for resistance to air and water infiltration.
- **Non-Corrosive Hardware:** Years of trouble free performance, no matter what the environment.
- **Sunshield® Vinyl:** Advanced virgin vinyl window material with a proven weather beating formula.
- **Foam Filled Frames Optional**
- **AAMA Certified, NFRC Rated, and Energy Star Approved.**
- **Limited Lifetime Warranty.**

Note: Some features subject to regional availability.

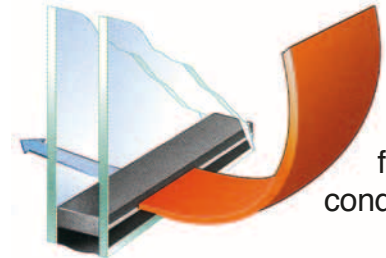

*Super Spacer*® bar is up to 950 times less conductive than standard aluminum spacer bar.

Standard aluminum spacer bar can conduct heat and cold — causing condensation at the edge of the glass. Convection currents further concentrate cold air along the bottom edge of glass making that area the most vulnerable.

Full aluminum spacer

NO-Metal Super Spacer blocks the heat escape path and protects the glass edge from moisture and condensation.

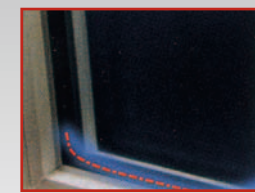

NO-Metal *Super Spacers*®

Only a 100% foam spacer design helps keep moisture off the glass through the warmest edge possible.

**Full Aluminum Spacer**

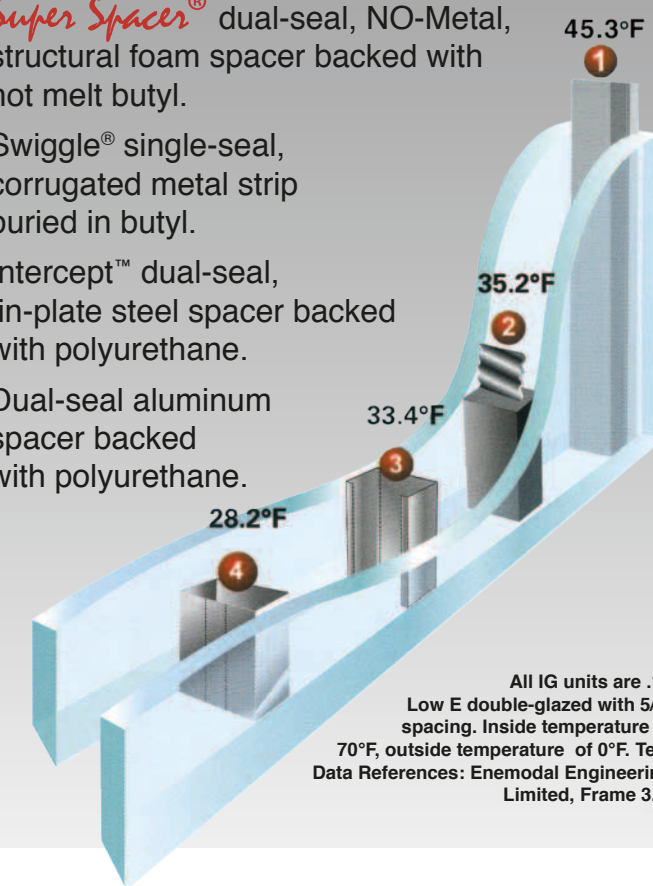

With conventional aluminum spacers, condensation is a fact of life.

**NO-Metal Super Spacer**

Patented all-foam design dramatically reduces window condensation, delivering the clearest view in warm edge technology.

1. *Super Spacer*® dual-seal, NO-Metal, structural foam spacer backed with hot melt butyl. 45.3°F
2. Swiggle® single-seal, corrugated metal strip buried in butyl. 35.2°F
3. Intercept™ dual-seal, tin-plate steel spacer backed with polyurethane. 33.4°F
4. Dual-seal aluminum spacer backed with polyurethane. 28.2°F

**Cut the Noise** – Whether it's cars whizzing by or power tools blasting on a Saturday morning, help keep it quiet inside. That's because the closed-cell polymer foam in Super Spacer transmits very little sound compared to conventional metal spacers. Just another reason you're more comfortable at home with *Super Spacers*®. With up to 18% improved sound absorption over traditional metal spacers, *Super Spacers*® is a huge help in keeping the decibels down.

Crown Windows are not just factory direct. Each window is custom manufactured allowing us to guarantee the highest quality product.

... with our multi-chamber extrusion, warmth and dependability are assured.

Choose from a wide selection of windows, custom made — factory to you, to fit your existing opening.
